A VISION BEYOND TECHNOLOGY

At Advaya.ai, we believe technology should not compete for human attention.

It should quietly support people, helping them think more clearly, learn more effectively, create more freely, and unlock more of their potential.

Our mission is to explore a future where artificial intelligence becomes a natural extension of everyday life through thoughtfully designed wearable technology.

VYOM is the first step toward that vision.

THE FUTURE IS NOT DEFINED BY THE TECHNOLOGY WE CREATE.
IT IS DEFINED BY THE HUMAN POTENTIAL WE HELP UNLOCK.

- ADVAYA.AI -

FOUNDER'S LETTER

A LETTER FROM THE FOUNDER

“ Every meaningful journey begins with a belief.
Ours began with a simple question: Can technology
become more human? ”

Dear Reader,

Thank you for taking the time to learn about Advaya.ai.

Whether you are an investor, partner, researcher, policymaker, engineer, or simply someone curious about the future, I appreciate your interest in our journey.

Advaya.ai was founded on a belief that has guided every step we have taken: **Technology should expand human potential—not compete for human attention.**

Over the past decade, artificial intelligence has advanced at an extraordinary pace. Yet, despite these breakthroughs, most people still interact with technology in ways that often interrupt rather than support their daily lives.

That observation inspired a question that changed everything for me: **What if AI could become a natural companion instead of another screen?**

From that question came the vision for VYOM.

VYOM represents our ambition to explore a new generation of human-centered AI wearables—technology designed to make intelligence more accessible, interactions more natural, and everyday life more seamless.

Our goal is not simply to create another device.

Our goal is to rethink how people experience artificial intelligence.

At Advaya.ai, we believe innovation should always begin with people. Every product we imagine, every decision we make, and every challenge we embrace is guided by one principle: **Will this genuinely improve someone's life?** If the answer is yes, we move forward. If the answer is no, we rethink it.

We also believe that meaningful innovation requires patience, responsibility, and long-term thinking. Building world-class technology is not about moving the fastest. It is about building with purpose, earning trust, and solving problems that truly matter.

Our ambition extends far beyond a single product. We envision an ecosystem of intelligent experiences that help people learn, create, communicate, and work more effectively while remaining present in the world around them.

As we continue this journey, our commitment remains unchanged: To build thoughtfully. To innovate responsibly. To stay curious. To remain humble. And to create technology worthy of people's trust.

While Advaya.ai is still in the early stages of its journey, our vision is long-term. We are building not only products, but a company defined by integrity, craftsmanship, and meaningful impact.

Thank you for being part of this story.

The future is not something we wait for. It is something we build—together.

With gratitude,

Founder & CEO, Advaya.ai

“ The future belongs to those
who build technology that
helps people become more
capable, more creative,
and more human. ”

- ✓ Future-focused innovation
- ✓ Responsible AI philosophy
- ✓ Building from India for the world

COMPANY OVERVIEW

WHO WE ARE

“We are building technology that doesn't just connect people to information—it empowers them to achieve more.”

Advaya.ai is an Indian deep-technology company exploring the future of human-centered artificial intelligence through thoughtfully designed wearable computing experiences.

Our goal is to make AI more natural, accessible, and useful in everyday life—helping people think, learn, create, communicate, and make better decisions without constantly demanding their attention.

Rather than viewing AI as a replacement for human intelligence, we see it as a tool that can **expand human capability** and unlock greater potential.

OUR PURPOSE

Technology has become an essential part of modern life, yet many digital experiences still compete for our attention instead of supporting it.

At Advaya.ai, we are exploring a different approach. We envision intelligent systems that work quietly in the background, providing meaningful assistance while allowing people to remain focused on the world around them.

Every product we pursue is guided by one question:

“Will this genuinely help people become more capable?”

If the answer is yes, we build.

WHAT WE ARE BUILDING

VYOM

AI-FIRST SMART GLASSES PLATFORM

VYOM is our flagship product vision—an AI-powered smart glasses platform currently under development.

The long-term vision for VYOM is to explore capabilities such as:

Natural AI
Conversations

Context-Aware
Assistance

Real-Time
Translation

Visual
Understanding

Productivity
Support

Everyday
Information Access

Hands-Free
AI Interaction

As development progresses, features and capabilities will continue to evolve through research, design, and user feedback.

“Artificial intelligence is most valuable when it helps people become more capable, more creative, and more connected to the world around them.”

FOUNDER REFLECTION

Advaya.ai is not simply about building technology. It is about building a future where intelligence becomes more accessible, more human, and more empowering for everyone.

— Ashutosh Yadav
Founder & CEO, Advaya.ai

FROM A QUESTION TO A VISION

“ Every extraordinary company begins with a question that refuses to be ignored.

OUR JOURNEY

OUR STORY

THE JOURNEY BEHIND ADVAYA.AI

WHERE IT ALL BEGAN

Advaya.ai did not begin with a laboratory, a large team, or a breakthrough invention. It began with a question.

Why, despite the incredible progress in artificial intelligence, do people still have to adapt to technology instead of technology adapting to them?

For years, computing has revolved around screens. Smartphones became faster, software became smarter, and AI became more powerful. Yet the experience of using technology often remained distracting, fragmented, and dependent on constant interaction.

That observation inspired a different way of thinking.

What if artificial intelligence could become an invisible companion—present when needed, silent when not, and naturally integrated into everyday life?

That simple idea became the foundation of Advaya.ai.

THE BIRTH OF VYOM

To bring this vision to life, we began imagining VYOM—an AI-first wearable platform designed to explore a more intuitive relationship between humans and technology.

Rather than requiring people to constantly reach for a screen, VYOM aims to enable natural interactions through voice, vision, and context-aware intelligence.

Our ambition is not simply to create another device. Our ambition is to redefine how people experience intelligence itself.

BUILDING WITH PURPOSE

From the beginning, we committed ourselves to three guiding principles:

HUMAN FIRST
Technology should always serve people.

PURPOSE BEFORE FEATURES
Every innovation should solve a meaningful problem.

LONG-TERM THINKING
Great companies are built through patience, discipline, and trust—not shortcuts.

These principles continue to shape every decision we make.

A JOURNEY STILL BEING WRITTEN

Advaya.ai is in the early stages of its journey. We are actively exploring, researching, designing, and refining ideas that will shape our future products and experiences.

Every conversation, every prototype, and every lesson brings us one step closer to our mission.

We understand that meaningful innovation takes time. That is why we are focused not on building quickly—but on building thoughtfully.

WHAT DRIVES US FORWARD

We believe the next era of computing should feel effortless. AI should help people think, create, learn, communicate, and solve problems without becoming another source of distraction.

This belief continues to guide our work every day.

OUR STORY IN ONE SENTENCE

Advaya.ai began with a question—and is growing into a mission to build technology that expands human potential.

“ Every great innovation starts with curiosity. Ours started with one question: What if technology could become more human? ”

Ashutosh Yadav
— Ashutosh Yadav
Founder & CEO, Advaya.ai

ADVAYA.AI

PAGE 05

WHY ADVAYA.AI

BUILDING TECHNOLOGY THAT PUTS HUMANITY FIRST

“The greatest technology is not the one that demands attention. It is the one that quietly helps people become more capable.”

BUILDING FROM INDIA, FOR THE WORLD

India is home to one of the world's largest and youngest technology communities. We believe the next generation of globally respected AI companies can emerge from India through bold ideas, responsible innovation, and world-class execution. Advaya.ai is committed to contributing to that future.

THE ADVAYA.AI PHILOSOPHY

“Technology should become so natural that it feels less like using a machine—and more like extending human potential.”

THE ADVAYA.AI PHILOSOPHY

HUMAN FIRST

Technology should always serve people.

RESPONSIBLE AI

We build with ethics, privacy, and responsibility at the core.

NATURAL INTELLIGENCE

AI should be natural, context-aware, and seamlessly integrated into everyday life.

TRUST

We earn trust through transparency, security, and long-term commitment.

INNOVATION

We explore, imagine, and build the future with curiosity and courage.

WHY ADVAYA.AI EXISTS

Artificial Intelligence is transforming the world at an unprecedented pace. Every day, AI becomes faster, smarter, and more capable.

Yet for millions of people, technology still feels complicated, distracting, and disconnected from real human needs.

At Advaya.ai, we believe this is not the future people deserve.

Technology should adapt to people—not require people to constantly adapt to technology.

That belief is why Advaya.ai exists.

OUR BELIEF

We believe AI should become an invisible layer of intelligence that naturally supports people throughout their day.

Instead of asking users to spend more time looking at screens, navigating apps, or managing devices, AI should understand context and provide meaningful assistance when it is needed most.

Technology should work quietly in the background, allowing people to remain focused on living, creating, learning, and connecting.

BEYOND ARTIFICIAL INTELLIGENCE

Advaya.ai is not simply building AI-powered products. We are exploring a new philosophy of computing.

A future where intelligence becomes:

- Natural
- Context-aware
- Human-centered
- Responsible
- Seamlessly integrated into everyday life

Our vision is to reduce friction between humans and technology, making every interaction simpler, more intuitive, and more meaningful.

WHY WE CHOSE THE NAME "ADVAYA"

The word Advaya originates from Sanskrit and means "Not Two" or "Non-Duality."

For us, it represents a future where humans and artificial intelligence are not in competition. Instead, they work together in harmony.

This philosophy defines everything we build.

AI should complement human intelligence—not replace it.

OUR DIFFERENCE

At Advaya.ai, we believe the future of technology will not be defined by who builds the smartest AI. It will be defined by who builds the most human AI.

That means designing products that are:

- Helpful before impressive
- Responsible before powerful
- Elegant before complicated
- Trustworthy before persuasive
- Human-centered before technology-centered

OUR LONG-TERM COMMITMENT

As technology evolves, our commitment remains constant:

- Build responsibly.
- Earn trust.
- Focus on long-term value.
- Design thoughtfully.
- Respect privacy.
- Expand human potential.

These principles will continue to guide every product, every decision, and every partnership we pursue.

FOUNDER REFLECTION

“Advaya.ai is more than a technology company. It is our commitment to building a future where artificial intelligence helps people become more capable, more creative, and more connected to what truly matters.”

Ashutosh Yadav

ASHUTOSH YADAV
Founder & CEO, Advaya.ai

WE ARE NOT BUILDING TECHNOLOGY FOR ATTENTION.
WE ARE BUILDING TECHNOLOGY FOR HUMAN POTENTIAL.

WHY VYOM

Redefining the Way Humans
Interact with Artificial Intelligence

“The next revolution in computing
will not be another screen.
It will be intelligence that
naturally becomes part of
everyday life.”

THE EVOLUTION OF COMPUTING

01

DESKTOP COMPUTING

Power to compute.

02

MOBILE COMPUTING

Power in your
pocket.

03

ARTIFICIAL INTELLIGENCE

Power to think
and learn.

04

VYOM AI WEARABLE COMPUTING

Intelligence that
naturally becomes
part of you.

The next leap is not
about another device.
It's about a new way
of being empowered.

THE BEGINNING OF A NEW COMPUTING ERA

Every major technological revolution has changed the way humans interact with information.

Computers brought digital computing. > Smartphones made computing mobile. > Artificial Intelligence made technology intelligent.

The next evolution is not about adding another device.
It is about making technology feel invisible.

At Advaya.ai, we believe wearable AI will become the next natural computing platform. That belief became VYOM.

WHAT IS VYOM?

VYOM is our flagship AI-first smart glasses platform currently under development. It represents our long-term vision of creating intelligent wearables that help people access information, communicate, learn, create, and solve problems through natural interaction rather than constant screen use.

Rather than replacing people, VYOM is being designed to complement human intelligence and support everyday life.

THE PHILOSOPHY BEHIND VYOM

The Sanskrit word "Vyom" means "Sky" or "Infinite Space." For us, it symbolizes limitless possibilities, freedom of thought, and the boundless potential of human intelligence. The name reflects our belief that technology should help people think beyond today's limitations.

THE PROBLEM WE SEE

Today's technology often requires people to:

Constantly
check their
phones

Switch
between
multiple apps

Manage
endless
notifications

Divide their
attention

Adapt to devices
instead of devices
adapting to them

We believe there is a better way.

OUR VISION FOR VYOM

VYOM aims to create a more natural relationship between humans and AI by exploring experiences such as:

Natural
Voice Interaction

Context-Aware
Intelligence

Visual
Understanding

Real-Time
Language Assistance

Productivity
Support

Learning
Assistance

Everyday
Information Access

Hands-Free
Interaction

These are part of our long-term product vision and will evolve through ongoing research and development.

DESIGNED AROUND PEOPLE

Every design decision begins with one question:

"Does this make life simpler, more natural, and more meaningful?"

If the answer is no—We redesign it.

OUR PROMISE

We are committed to exploring technology that is:

- ✓ Human-centered
- ✓ Responsible
- ✓ Private by design
- ✓ Elegant
- ✓ Accessible
- ✓ Built for long-term impact

WHY VYOM MATTERS

“Because the future of AI
should feel less like using
technology—and more like
extending human intelligence.”

FOUNDER REFLECTION

“VYOM is our belief that the future of artificial intelligence is not about replacing human abilities—it is about helping every person think, create, and achieve more naturally.”

Ashutosh Yadav

ASHUTOSH YADAV
Founder & CEO, Advaya.ai

THE FUTURE ISN'T ANOTHER SCREEN.

IT'S INTELLIGENCE YOU CAN WEAR.

HUMAN • INTELLIGENT • NATURAL • LIMITLESS

MISSION

Our Purpose.
Our Commitment.
Our Responsibility.

“ Our mission is not to build smarter machines. It is to help people become more capable through thoughtful artificial intelligence. ”

OUR MISSION

At Advaya.ai, our mission is to make artificial intelligence feel **natural, accessible, and genuinely useful** in everyday life.

We believe AI should not be reserved for experts or hidden behind complex interfaces. It should become a trusted companion that quietly supports people in learning, creating, communicating, solving problems, and making better decisions.

OUR PURPOSE

Technology should help people spend less time managing devices and more time focusing on **what truly matters**.

We are working toward a future where intelligent systems reduce friction in everyday life, enabling people to think more clearly, create more freely, and collaborate more effectively.

“Will this meaningfully improve someone's life?”

That's the question that drives us.

OUR LONG-TERM MISSION

- ✓ Make AI more accessible for everyone.
- ✓ Build products people truly trust.
- ✓ Reduce unnecessary digital complexity.
- ✓ Encourage creativity, learning, and growth.
- ✓ Design responsibly with privacy and ethics.
- ✓ Contribute to a future that empowers humanity.

HOW WE MEASURE SUCCESS

- Real Impact on People
- Stronger Trust
- Positive Change
- Better Experiences
- Meaningful Innovation

Success is not defined only by the sophistication of our technology. It is defined by the **positive impact** it has on people's lives.

MISSION STATEMENT

“ To create human-centered artificial intelligence that empowers people to learn, create, communicate, and unlock their full potential through natural, responsible, and thoughtfully designed technology. ”

THE JOURNEY WE BELIEVE IN

From a small idea to a global impact — this is the path we are committed to.

FOUNDER REFLECTION

“ Our mission is not simply to build AI. Our mission is to build technology that helps people become more capable, more creative, and more connected to the world around them. ”

Ashutosh Yadav

ASHUTOSH YADAV
Founder & CEO, Advaya.ai

OUR PROMISE

Every decision we make, every product we imagine, and every challenge we embrace is guided by one enduring belief:

Technology should **expand human potential**— not compete for human attention.

EMPOWERING HUMANITY THROUGH THOUGHTFUL ARTIFICIAL INTELLIGENCE.

Humanity First

Integrity Always

Innovation With Purpose

Built For The Future

Made With Responsibility

ADVAYA.AI

VISION

IMAGINING THE FUTURE
WE WANT TO BUILD

“The future is not something we predict. It is something we build—with courage, responsibility, and imagination.”

A WORLD WHERE AI FEELS NATURAL

- AI understands context before responding.
- Information appears exactly when it is needed.
- Communication becomes effortless across languages.
- Learning becomes deeply personalized.
- Creativity is amplified through intelligent collaboration.
- Technology respects privacy and earns trust by design.

THE FUTURE WE SEE

OUR VISION IN ONE SENTENCE

“To build a future where human intelligence and artificial intelligence work together naturally, responsibly, and meaningfully to improve lives around the world.”

WHAT SUCCESS LOOKS LIKE

For us, success is not measured only by technological breakthroughs. It is measured by the number of lives improved, the trust we earn, and the positive impact our innovations create for society.

OUR VISION

At Advaya.ai, we envision a future where artificial intelligence becomes an invisible yet trusted companion—working naturally alongside people to expand their knowledge, creativity, and potential.

We believe the next generation of computing will not revolve around more screens or more notifications. It will revolve around intelligent experiences that understand people, respect their attention, and quietly assist them throughout their lives.

Our vision is to help shape that future.

BEYOND ONE PRODUCT

VYOM is only the beginning.

Our long-term vision is to build a connected ecosystem of intelligent technologies that work together to simplify everyday life.

As our research and capabilities evolve, we aspire to explore innovations across wearable computing, intelligent software, and AI-driven experiences—all guided by a single philosophy:

Technology should empower people,
not overwhelm them.

INNOVATION WITH RESPONSIBILITY

Progress without responsibility is not true progress.

As artificial intelligence becomes more capable, it must also become more ethical, transparent, and accountable.

We are committed to building technology that respects human values, protects privacy, and earns long-term trust.

BUILDING FROM INDIA FOR THE WORLD

We believe India has the talent, creativity, and determination to contribute meaningfully to the future of global technology.

Our ambition is to build products that are designed in India and respected around the world—not because they are the most complex, but because they are the most thoughtful.

TRUST

Built on honesty, transparency, and integrity.

INNOVATION

Exploring today for a better tomorrow.

PRIVACY

Respecting data. Protecting people.

GLOBAL IMPACT

Creating technology that improves lives worldwide.

LEARNING

Empowering minds through knowledge.

CREATIVITY

Amplifying human imagination with AI.

FOUNDER REFLECTION

“I believe the greatest technology of the future will not be remembered for its complexity. It will be remembered for how naturally it helped people become more capable.”

Ashutosh Yadav

ASHUTOSH YADAV
Founder & CEO, Advaya.ai

BUILDING A FUTURE WHERE
INTELLIGENCE WORKS NATURALLY FOR EVERYONE.

“The future belongs to those who build technology that empowers humanity—not technology that competes with it.”

CORE VALUES

THE PRINCIPLES THAT
GUIDE EVERYTHING WE BUILD

“ Technology evolves.
Markets change.
Products improve.
But values define
a company for
generations. ”

OUR FOUNDATION

At Advaya.ai, technology is only one part of who we are. Our true foundation is the values that guide every decision, every product, every partnership, and every interaction.

Everything we build flows through this foundation.

THE ADVAYA.AI VALUE SYSTEM

OUR CULTURE

We aspire to build a culture where:

FOUNDER REFLECTION

“ Great technology may inspire people
for a moment. Great values inspire
generations. ”

Ashutosh Vadav
Founder & CEO, Advaya.ai

OUR PROMISE

These values are more than words. They are commitments that will guide Advaya.ai as we grow, innovate, and contribute to the future of human-centered artificial intelligence.

01 HUMAN FIRST

Every product begins with people. We build technology that serves humanity, respects individual needs, and improves everyday life. People will always come before technology.

02 INNOVATION WITH PURPOSE

Innovation is meaningful only when it solves real problems. We do not innovate to impress. We innovate to improve lives.

03 INTEGRITY

Trust is earned through honesty, transparency, and responsibility. We believe integrity is the most valuable technology a company can build.

04 CURIOSITY

Every breakthrough begins with a question. We encourage exploration, continuous learning, and the courage to challenge assumptions. Curiosity fuels innovation.

05 EXCELLENCE

Good is never enough. We pursue excellence in engineering, design, research, and user experience because details define great products.

06 LONG-TERM THINKING

We are building a company designed to last for decades—not one driven by short-term trends. Every decision is made with the future in mind.

07 RESPONSIBILITY

Artificial intelligence brings great opportunity—and great responsibility. We are committed to developing technology that respects privacy, promotes safety, and earns trust.

08 COLLABORATION

The best ideas are built together. We believe diverse perspectives, open communication, and shared purpose create stronger teams and better products.

09 COURAGE

Innovation requires the courage to explore difficult problems, challenge convention, and imagine possibilities others cannot yet see. Progress belongs to those willing to take thoughtful risks.

10 POSITIVE IMPACT

Success is not measured only by revenue or technology. It is measured by the lives we improve and the value we create for society.

OUR VALUES ARE THE OPERATING SYSTEM
BEHIND EVERY DECISION WE MAKE.

“ Products may define what
we create. Values define
who we become. ”

ADVAYA.AI

PAGE

LEADERSHIP PHILOSOPHY

LEADING WITH PURPOSE.
BUILDING WITH INTEGRITY.

“Leadership is not about having power over people. It is about creating opportunities for people to achieve what they never thought possible.”

OUR PHILOSOPHY

At Advaya.ai, leadership is not defined by titles or authority. It is defined by responsibility.

A leader's role is to inspire, empower, and create an environment where people can do the best work of their lives.

We believe that the strongest companies are built by leaders who serve their mission before themselves.

LEADERSHIP CULTURE

At Advaya.ai, every team member is encouraged to:

Take Ownership

Think Independently

Ask Meaningful Questions

Learn Continuously

Share Ideas Openly

Support One Another

Build with Integrity

Never Stop Improving

Leadership is a mindset—not a position.

THE LEADERSHIP PYRAMID

Strong leadership transforms ideas into lasting impact.

ADVAYA.AI

LEADERSHIP THROUGH PURPOSE

OUR COMMITMENT

As Advaya.ai grows, we remain committed to building an organization defined by humility, responsibility, craftsmanship, and trust.

We aspire to become a company where people are proud not only of what they build—but also of how they build it.

FOUNDER REFLECTION

“The greatest leaders do not build companies. They build people who build extraordinary companies.”

Ashutosh Yadav
ASHUTOSH YADAV
Founder & CEO, Advaya.ai

OUR LEADERSHIP PRINCIPLES

01 MISSION BEFORE EGO

Every decision begins with our mission—not personal recognition. We celebrate collective success over individual achievement.

02 LEAD BY EXAMPLE

Culture is built through actions, not words. Integrity, discipline, and humility must be demonstrated every day.

03 PEOPLE FIRST

Great products are created by great people. We invest in learning, collaboration, and personal growth because people are our greatest strength.

04 LONG-TERM THINKING

We choose sustainable progress over short-term wins. Every decision should strengthen the future of the company and the people it serves.

05 CURIOSITY WITHOUT LIMITS

Innovation begins with questions. We encourage experimentation, exploration, and lifelong learning. The best ideas often emerge from unexpected places.

06 EARN TRUST EVERY DAY

Trust is not demanded. It is earned through honesty, transparency, consistency, and accountability. Without trust, innovation cannot thrive.

07 BUILD WITH RESPONSIBILITY

Artificial intelligence carries enormous potential. That potential must always be matched with responsibility, ethics, and respect for humanity. Technology should never compromise human dignity.

THE LEADER'S IMPACT

Inspire Purpose

Empower People

Enable Growth

Create Legacy

A leader's impact is not measured by the position they hold, but by the people and purpose they elevate.

LEADERSHIP IS NOT ABOUT BEING AHEAD OF OTHERS.
IT IS ABOUT HELPING OTHERS
MOVE FORWARD TOGETHER.

“True leadership creates a legacy measured not by authority, but by the lives it empowers and the future it helps build.”

THE PROBLEM

WHY THE WORLD NEEDS A NEW WAY TO EXPERIENCE ARTIFICIAL INTELLIGENCE

“Technology has become more intelligent than ever before. Yet for many people, it still feels less natural than it should.”

THE CHALLENGE

AI is advancing rapidly, but the way we interact with technology has hardly changed. We still rely on screens, apps, and notifications that fragment our attention instead of simplifying our lives.

THE CURRENT REALITY

- Constantly unlocking phones
- Switching between multiple apps
- Searching for information manually
- Managing countless notifications
- Interrupting conversations
- Dividing attention between digital and physical world.

THE HUMAN COST

Time, focus, and mental energy are consumed by digital fiction. People spend more time managing technology than benefiting from it. Technology should reduce complexity—not add to it.

FOUNDER REFLECTION

“The greatest problem isn’t that technology isn’t intelligent enough. It’s that it still doesn’t understand people well enough.”

Ashutosh Yadav
Founder & CEO, Advaya.ai

PAGE
11

THE TURNING POINT A NEW PERSPECTIVE

We believe the next era of computing should prioritize human experience over device interaction.

Technology should adapt to people, not the other way around.

OUR DESIGN QUESTION

How can technology become so natural that people almost forget it is there?

This question guides every product we imagine, every decision we make, and every innovation we pursue.

WHAT WE BELIEVE

The future of AI is not defined by having more features. It is defined by creating more meaningful experiences.

- Support people naturally
- Respect attention
- Enhance productivity
- Encourage creativity
- Simplify everyday life
- Build trust through design

THE OPPORTUNITY

As AI continues to evolve, we have an opportunity to rethink how people experience intelligence.

The next generation of innovation should focus on making human experiences better.

This belief forms the foundation of Advaya.ai.

THE FUTURE STARTS HERE

The challenge is not simply building better technology.

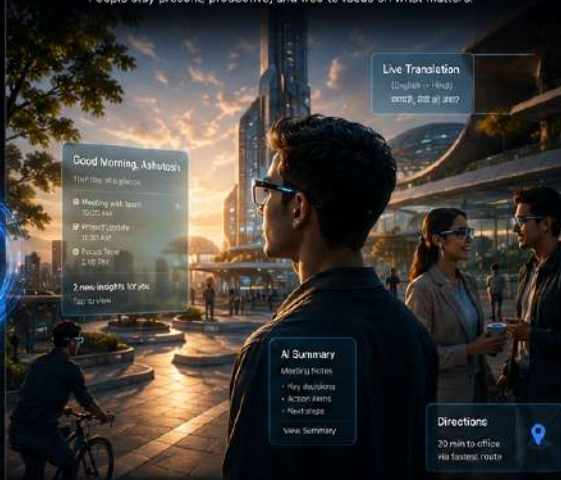

The challenge is building technology that better serves humanity.

That is the future we are committed to exploring.

TOMORROW'S WORLD

NATURAL. INTUITIVE. INTELLIGENT.

AI quietly understands, anticipates, and assists—only when needed. People stay present, productive, and free to focus on what matters.

THE PROBLEM SUMMARY

TODAY'S WORLD

- More Screens
- More Notifications
- More Apps
- More Distraction
- More Complexity

TOMORROW'S WORLD

- Natural Intelligence
- Wearable AI
- Human-Centered Experiences
- Responsible Innovation
- Expanded Human Potential

THE FUTURE OF COMPUTING IS NOT MORE SCREENS.
IT'S MORE HUMAN EXPERIENCES.

NATURAL • INTELLIGENT • RESPONSIBLE • HUMAN

OUR SOLUTION

HUMAN-CENTERED ARTIFICIAL INTELLIGENCE, DESIGNED FOR EVERYDAY LIFE.

“The future of AI isn't about replacing people. It's about helping people achieve more naturally.”

INTRODUCING VYOM

AI-FIRST SMART GLASSES PLATFORM

VYOM is our flagship product vision and a representation of our long-term exploration of wearable artificial intelligence.

It aims to be a natural interface between people and AI—enabling intuitive interactions through voice, vision, and context awareness.

VYOM is being designed to be a quiet, intelligent companion, not another screen.

VYOM is under development. All features shown are part of our long-term vision.

OUR SOLUTION

A HUMAN-CENTERED AI ECOSYSTEM

We are building a future where AI understands context, anticipates needs, and provides meaningful assistance—right when it matters.

WHAT WE ARE BUILDING TOWARD

THE ADVAYA.AI EXPERIENCE

WHY OUR APPROACH IS DIFFERENT

OUR PROMISE

Every solution we pursue must answer one question: “Does this help people become more capable?” If the answer is yes, we continue. If not, we rethink.

OUR DESIGN PRINCIPLES

Five principles guide every solution we create.

01 INVISIBLE INTELLIGENCE

Technology should stay in the background until it is genuinely needed.

02 NATURAL INTERACTION

Voice, vision, and contextual understanding should feel effortless and intuitive.

03 HUMAN-CENTERED DESIGN

Every feature should solve a real human problem—not simply demonstrate technological capability.

04 RESPONSIBLE AI

Privacy, trust, transparency, and ethical development remain central to every design decision.

05 TIMELESS SIMPLICITY

The best technology is simple, elegant, and easy to use.

FOUNDER REFLECTION

“Technology reaches its highest purpose when it quietly helps people think more clearly, create more freely, and live more meaningfully.”

Ashutosh Yadav

Founder & CEO, Advaya.ai

OUR SOLUTION IS NOT ANOTHER DEVICE.

IT'S A BETTER RELATIONSHIP BETWEEN HUMANS AND ARTIFICIAL INTELLIGENCE.

HUMAN-CENTERED

INTUITIVE

RESPONSIBLE

ADAPTIVE

MEANINGFUL

BEYOND ONE PRODUCT

At Advaya.ai, we believe the future of technology is built around connected intelligence.

VYOM AI Glasses represent our first product vision, but our ambition extends far beyond a single wearable.

We envision an ecosystem where intelligent devices communicate naturally, understand context, and provide seamless assistance across every aspect of daily life.

LONG-TERM ROADMAP

- PHASE 01**
VYOM AI Glasses
- PHASE 02**
AI Assistant Platform
- PHASE 03**
Connected Wearables
- PHASE 04**
Unified AI Ecosystem
- PHASE 05**
Global Human-Centered Intelligence Platform

WHY AN ECOSYSTEM MATTERS

The true power of artificial intelligence is not found in a single device. It emerges when multiple intelligent experiences work together naturally to support people throughout their daily lives.

That is the future we are building toward.

VYOM ECOSYSTEM

ONE INTELLIGENCE. INFINITE POSSIBILITIES.

“The future isn't a collection of disconnected devices. It's one intelligent ecosystem that works together seamlessly.”

ONE CONNECTED EXPERIENCE

ONE CONVERSATION.
ONE MEMORY.
ONE INTELLIGENT
ECOSYSTEM.

OUR ECOSYSTEM PRINCIPLES

CONNECTED INTELLIGENCE
Every device shares context naturally for a seamless experience.

HUMAN-CENTERED DESIGN
Technology remains simple, intuitive, and unobtrusive.

PRIVACY BY DESIGN
Users remain in control of their data and experiences.

ADAPTIVE LEARNING
The ecosystem becomes more helpful over time through continuous learning.

SEAMLESS EXPERIENCES
Technology disappears into everyday life.

FOUNDER REFLECTION

“Our goal is not to build many devices. Our goal is to build one intelligent experience that feels effortless, trustworthy, and truly human.”

Ashutosh Yadav
Founder & CEO, Advaya.ai

ONE INTELLIGENCE. EVERY DEVICE.
ENDLESS POSSIBILITIES.

NATURAL INTELLIGENT CONNECTED SECURE HUMAN-CENTERED

“The future belongs to ecosystems, not isolated products.”

THE EVOLUTION OF COMPUTING

**FIRST ERA
DESKTOP COMPUTING**
People adapted to computers.

**SECOND ERA
MOBILE COMPUTING**
Computers became portable.

**THIRD ERA
ARTIFICIAL INTELLIGENCE**
Software became intelligent.

**FOURTH ERA
AI WEARABLE COMPUTING**
Technology becomes natural.

OUR POSITION

We are not simply following existing trends.
We are building with a long-term belief:
"The future of computing will be wearable, contextual, intelligent, and human-centered."

FOUNDER REFLECTION

"Every generation experiences one major shift in computing. I believe the next one will be defined by wearable intelligence that works naturally alongside people."

Advaita Joshi
Founder & CEO, Advaya.ai

MARKET OPPORTUNITY

THE FUTURE OF AI WEARABLES HAS JUST BEGUN

"Every major computing revolution created a new market. We believe AI wearables represent the next chapter."

WHY NOW?

ARTIFICIAL INTELLIGENCE
Rapid advances in AI capabilities are enabling more intuitive human-computer interactions.

WEARABLE TECHNOLOGY
People prefer lightweight, always-available devices over traditional computing experiences.

VOICE INTERFACES
Natural conversation is becoming an increasingly important way to interact with technology.

SPATIAL COMPUTING
Digital experiences are moving beyond flat screens into the physical world.

CONTEXT-AWARE INTELLIGENCE
AI systems are better at understanding user context and providing relevant assistance.

A GLOBAL OPPORTUNITY ACROSS INDUSTRIES

EDUCATION
Smarter learning. Better understanding. Limitless potential.

HEALTHCARE
Better care. Faster insights. Health for all.

COMMUNICATION
Break language barriers. Stay connected. Anywhere, anytime.

BUSINESS
Smarter decisions. Better productivity. Stronger impact.

CREATIVITY
Inspire ideas. Enhance creation. Unleash imagination.

INDUSTRY
Smarter operations. Higher efficiency. Intelligent automation.

THE NEXT DECADE

AI becomes naturally accessible.

Wearables become primary computing interfaces.

Human attention becomes more respected.

Technology fades into the background.

Intelligence becomes available whenever it is needed.

WHO WE BUILD FOR

STUDENTS
Learning, research, productivity, and language assistance.

PROFESSIONALS
Communication, meetings, organization, and knowledge access.

CREATORS
Idea generation, storytelling, content creation, and creativity.

DEVELOPERS & ENGINEERS
Research, coding support, technical documentation, and productivity.

ENTREPRENEURS
Decision support, planning, collaboration, and execution.

EVERYDAY USERS
Simple, natural AI assistance throughout daily life.

OPPORTUNITY SUMMARY

AI

WEARABLES

CONTEXT AWARENESS

HUMAN-CENTERED DESIGN

THE NEXT GENERATION OF COMPUTING

THE NEXT GENERATION OF COMPUTING WILL BE
HUMAN-CENTERED, INTELLIGENT, AND WEARABLE.

"We are preparing not just for the next product—but for the next era of computing."

THE USER EXPERIENCE

MORE THAN HARDWARE

VYOM is not just about smart glasses. It represents our belief that artificial intelligence should become an invisible partner—helping people think, learn, create, and solve problems without competing for their attention.

PRODUCT VISION

VYOM — THE FUTURE OF HUMAN-CENTERED AI WEARABLES

“We are not building another gadget. We are envisioning a new way for people to interact with intelligence.” ”

INTRODUCING VYOM

VYOM is the flagship product vision of Advaya.ai—an AI-first wearable platform designed to explore a future where artificial intelligence becomes a natural extension of everyday life.

Our long-term goal is to create technology that works quietly in the background, helping people stay informed, productive, and connected while remaining present in the real world.

THE VISION BEHIND VYOM

We believe the next generation of computing should be:

LONG-TERM EXPERIENCE VISION

OUR PRODUCT PROMISE

Every future capability we explore must satisfy three principles:

PRODUCT VISION STATEMENT

“To create AI wearables that make intelligence feel natural, trusted, and effortlessly integrated into everyday life.” ”

DESIGNED AROUND HUMAN NEEDS

Every element of VYOM begins with a simple philosophy: Technology should adapt to people—not the other way around. Instead of adding complexity, our vision is to reduce it. Instead of demanding attention, AI should provide meaningful support only when it is needed.

HUMAN-CENTERED DESIGN
Designed for real human needs and real-world situations.

INVISIBLE INTELLIGENCE
Works quietly in the background, so you can stay present.

NATURAL INTERACTION
Voice, vision, and touch interactions that feel effortless.

CONTEXT AWARENESS
Understands your environment, intent, and preferences.

PRIVACY BY DESIGN
Your data, your control. Privacy is at the core.

PREMIUM CRAFTSMANSHIP
Lightweight, comfortable, minimal, and timeless.

RESPONSIBLE AI
Ethical, transparent, and built for a better future.

FOUNDER REFLECTION

“Our ambition is not to build smarter devices. It is to help people become smarter, more creative, and more capable through thoughtful technology.” ”

Ashutosh Yadav
Founder & CEO, Advaya.ai

VYOM

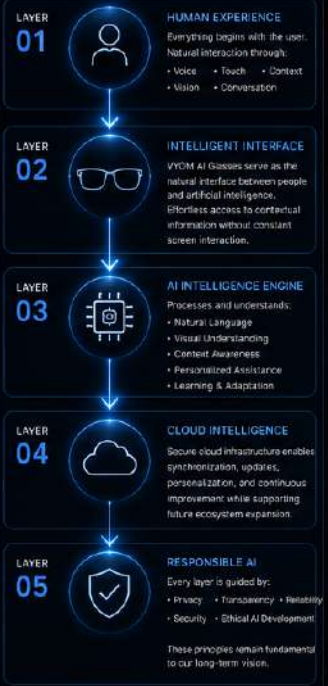

WHERE HUMAN INTELLIGENCE MEETS ARTIFICIAL INTELLIGENCE

AI-FIRST HUMAN-CENTERED INTELLIGENT SEAMLESS TRUSTED

VISION. INNOVATION. IMPACT.

“The best technology disappears into your life—leaving only a better version of yourself.” ”

THE VYOM TECHNOLOGY STACK

TECHNOLOGY ARCHITECTURE

THE INTELLIGENCE BEHIND VYOM

“Great products are not defined by the number of technologies they contain, but by how seamlessly those technologies work together.”

ENGINEERING THE FUTURE

At Advaya.ai, we believe extraordinary user experiences begin with thoughtful engineering. VYOM is envisioned as a human-centered AI platform where hardware, software, and artificial intelligence operate as one unified system. Our long-term vision is to build technology that feels simple to use while relying on sophisticated engineering behind the scenes.

HOW IT WORKS

VYOM AI GLASSES - ENGINEERED FOR INTELLIGENCE

ARCHITECTURE OVERVIEW

CORE TECHNOLOGY PILLARS

ARTIFICIAL INTELLIGENCE
The intelligence that powers natural interaction, understanding and assistance.

COMPUTER VISION
Helping AI understand the visual world to provide real-time contextual insights.

VOICE INTELLIGENCE
Natural voice recognition, speech understanding and response generation.

CONTEXT AWARENESS
Aware of your surroundings, preferences and activities to provide relevant help.

SECURE CLOUD
Scalable cloud infrastructure for continuous learning, updates and synchronization.

RESPONSIBLE AI
Designed with privacy, security, transparency and ethics at the core of everything.

BUILT FOR THE FUTURE
Our technology architecture is designed with scalability in mind. As research evolves, future capabilities can be integrated into the ecosystem while maintaining a consistent user experience. The goal is not simply to create smarter devices—but a smarter relationship between people and technology.

FOUNDER REFLECTION

“The best technology is incredibly sophisticated on the inside and beautifully simple on the outside.”

Ashutosh Yadav
Founder & CEO, Advaya.ai

VYOM
AI WEARABLES BY ADVAYA.AI

INNOVATIVE
Solving real problems with future-ready thinking.

INTELLIGENT
AI that understands, learns and improves.

HUMAN-CENTERED
Built for people. Designed for life.

SEAMLESS
Technology that fits naturally into life.

THE SHIFT IN TECHNOLOGY

TRADITIONAL TECHNOLOGY

Technology adapts people.

- SCREEN-FIRST**
Attention is divided.
- REACTIVE**
You ask, then it responds.
- APP-CENTRIC**
Multiple apps for multiple tasks.
- COMPLEX**
Learning curves and distractions.

VYOM VISION

Technology understands you.

- HUMAN-FIRST**
Designed around you.
- PROACTIVE**
Understands, anticipates, and assists.
- AI-CENTRIC**
One intelligence for everything you do.
- NATURAL**
Seamless, intuitive, effortless.

KEY DIFFERENTIATORS

WHAT MAKES VYOM DIFFERENT

“ True innovation is not about adding more features.
It is about creating a fundamentally better experience. ”

At Advaya.ai, we believe the future of AI will be defined by how naturally technology fits into people's lives. VYOM is our vision to create a more human way of interacting with intelligence.

OUR COMPETITIVE PHILOSOPHY

We do not aspire to build the product with the most features.
We aspire to build the product that people trust, enjoy, and naturally integrate into their everyday lives. That difference defines Advaya.ai.

THE VYOM ADVANTAGE

8 PILLARS THAT DEFINE VYOM

- HUMAN-CENTERED DESIGN**
Every interaction is designed around real human needs and real-world use.
- AI-FIRST PHILOSOPHY**
AI is not a feature. It is the core that connects every experience.
- CONTEXT-AWARE INTELLIGENCE**
We aim to understand context before providing assistance.
- INVISIBLE COMPUTING**
Technology fades into the background so you can stay in the moment.
- PRIVACY BY DESIGN**
Your data, your control. Privacy and security at the core of everything.
- PREMIUM EXPERIENCE**
Crafted with precision engineering for a premium and timeless feel.
- ONE CONNECTED INTELLIGENCE**
A unified ecosystem that works together seamlessly.
- LONG-TERM INNOVATION**
A long-term commitment to meaningful innovation and responsible AI.

FOUNDER REFLECTION

“ The companies that shape the future will not simply build smarter technology—they will build technology that people genuinely trust and love to use. ”

Ashutosh Yadav

Founder & CEO, Advaya.ai

DESIGNED AROUND PEOPLE.
POWERED BY INTELLIGENCE.
BUILT FOR THE FUTURE.

“ Our greatest differentiator is not the technology itself—it is the philosophy behind how we build it. ”

ROADMAP

BUILDING THE FUTURE, ONE MILESTONE AT A TIME

“Great companies are not built overnight. They are built through thousands of disciplined decisions made over many years.”

OUR LONG-TERM JOURNEY

Advaya.ai is building a trusted ecosystem of human-centered AI that evolves responsibly over time. Each phase represents a meaningful step toward our vision.

PHASE 01
RESEARCH & FOUNDATION

OBJECTIVE
Build the foundation and define the vision for VYOM.

STATUS: FOUNDATION PHASE

- Company Formation
- Brand Identity
- Product Vision
- Technology Research
- AI Exploration
- Market Research
- Design Philosophy
- IP Strategy

PHASE 02
PRODUCT DEVELOPMENT

OBJECTIVE
Transform the VYOM vision into functional prototypes and validate core technologies.

- Industrial Design
- Hardware Engineering
- AI Software Development
- UX / UI Design
- Prototype Development
- Internal Testing
- User Research
- Product Iteration

PHASE 03
PILOT & VALIDATION

OBJECTIVE
Test with early users, gather insights, and improve the experience.

- Beta Program
- Feedback Collection
- Performance Optimization
- Security & Privacy Testing
- AI Model Improvement
- Product Refinement

PHASE 04
LAUNCH & GROWTH

OBJECTIVE
Introduce VYOM to the market and build a strong user community.

- Product Launch
- Customer Experience
- Brand Growth
- Strategic Partnerships
- Community Building
- Customer Support

PHASE 05
AI ECOSYSTEM EXPANSION

OBJECTIVE
Expand beyond a single product into a connected ecosystem of intelligent experiences.

- AI Assistant Platform
- Connected Wearables
- AI Services
- Cloud Intelligence
- Developer Ecosystem
- Enterprise Solutions

01

RESEARCH & FOUNDATION

Building strong roots through research, vision, and the right foundation.

02

PRODUCT DEVELOPMENT

Turning concepts into prototypes and engineering core technologies.

03

PILOT & VALIDATION

Testing in real-world scenarios and refining based on feedback.

04

LAUNCH & GROWTH

Launching VYOM and building a community that grows with us.

05

AI ECOSYSTEM EXPANSION

Creating a connected ecosystem of intelligence that empowers the world.

SUCCESS ISN'T MEASURED BY SPEED. —

We believe lasting companies are built through patience, discipline, and continuous improvement. Our focus is on building technology that people will trust for decades—not just for moments.

THE JOURNEY AHEAD

Every milestone brings us closer to our mission.

CREATING TECHNOLOGY THAT
NATURALLY EXPANDS HUMAN POTENTIAL.

THE FUTURE VISION

A CONNECTED ECOSYSTEM OF INTELLIGENCE

VYOM AI GLASSES

CLOUD
INTELLIGENCEGLOBAL AI
PLATFORMDEVELOPER
ECOSYSTEM

OUR GUIDING PRINCIPLES

HUMAN-CENTERED DESIGN
Technology adapts to people, not the other way around.

RESPONSIBLE AI
Ethical development for a better future.

PRIVACY BY DESIGN
Privacy is built in, not added later.

LONG-TERM INNOVATION
Building for decades, not just product cycles.

PREMIUM EXPERIENCE
Designed with precision, beauty, and attention to every detail.

TRUST BEFORE GROWTH
Earning trust is more important than growing fast.

FOUNDER REFLECTION

“The roadmap is not just a plan for products. It is a commitment to building the future responsibly, one milestone at a time.”

Ashutosh Yadav

Founder & CEO, Advaya.ai

EVERY GREAT VISION BEGINS WITH A SINGLE STEP—
AND CONTINUES WITH **RELENTLESS EXECUTION.**

“Our roadmap is not about reaching the future first. It is about building the future the right way.”

OUR LONG-TERM REVENUE MODEL

- 01 AI HARDWARE**
 Premium AI wearable devices, beginning with VYOM AI Glasses, designed to provide natural, human-centered AI experiences.
 • Intelligent Interaction • Premium Design • Everyday Productivity • Seamless AI Access
- 02 AI SUBSCRIPTION SERVICES**
 Optional premium services that provide enhanced AI capabilities and personalized experiences.
 Advanced AI Assistant | Personalized Intelligence | Cloud Sync | Productivity Features | Learning Tools | Professional AI Services
- 03 ENTERPRISE SOLUTIONS**
 Future AI solutions designed for organizations, businesses, and institutions.
 Workplace Productivity | AI Knowledge Systems | Enterprise Collaboration | Industry-Specific AI Solutions
- 04 DEVELOPER ECOSYSTEM**
 Enabling developers to create innovative experiences through APIs, SDKs, and ecosystem tools.
 APIs | SDKs | Tools | Community | Innovation
- 05 STRATEGIC PARTNERSHIPS**
 Collaborations with technology companies, educational institutions, research organizations, and enterprise partners to accelerate responsible innovation.

FOUNDER REFLECTION

“The strongest businesses are built on trust. Revenue is the outcome of consistently creating value for people.”

Ashutosh Yadav
 Founder & CEO, Advaya.ai

BUSINESS MODEL

CREATING SUSTAINABLE VALUE THROUGH HUMAN-CENTERED AI

“A great business model doesn't just generate revenue—it creates lasting value for customers, partners, and society.”

OUR BUSINESS PHILOSOPHY

At Advaya.ai, we believe sustainable businesses are built by solving meaningful problems and earning long-term trust. Our goal is to create an AI ecosystem that continuously delivers value throughout the customer journey. As our products and services evolve, we envision multiple complementary revenue streams that support innovation while keeping users at the center.

THE ADVAYA.AI FLYWHEEL

CUSTOMER-FIRST ECONOMICS

We believe long-term success comes from:

- Exceptional Products
- Outstanding User Experience
- Continuous Innovation
- Responsible AI
- Trust

BUSINESS VISION STATEMENT

“To build a sustainable AI company that creates long-term value through thoughtful innovation, premium products, and trusted human-centered experiences.”

INNOVATION CREATES VALUE.
 VALUE BUILDS TRUST.
 TRUST DRIVES SUSTAINABLE GROWTH.

VALUE CREATION CYCLE

This cycle represents the foundation of our business philosophy.

- RESEARCH**
 Understanding people, technology, and real-world challenges.
- INNOVATION**
 Turning insights into breakthrough ideas and solutions.
- PRODUCT**
 Building meaningful products with human-centered design.
- CUSTOMER VALUE**
 Delivering experiences that truly improve lives.
- TRUST**
 Earning trust through transparency, privacy, and reliability.
- SUSTAINABLE GROWTH**
 Growing together with customers, partners, and our community.
- CONTINUOUS INNOVATION**
 Reinvesting and pushing the boundaries of what's possible.

BUSINESS PRINCIPLES

- LONG-TERM THINKING**
 Building relationships, not transactions.
- RESPONSIBLE GROWTH**
 Growing sustainably without compromising quality or ethics.
- GLOBAL VISION**
 Creating products designed in India and trusted around the world.
- CONTINUOUS INNOVATION**
 Investing in research to build the future of human-centered AI.

“We don't build products to maximize transactions. We build relationships that last for generations.”

- HUMAN-CENTERED
- AI-POWERED
- RESPONSIBLE
- SUSTAINABLE

GO-TO-MARKET STRATEGY

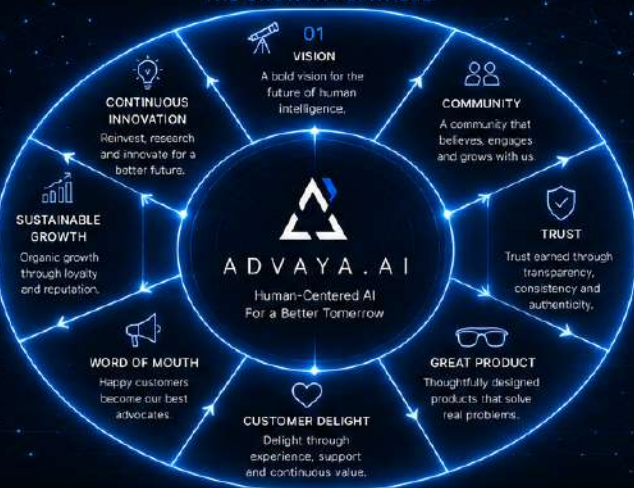

BUILDING TRUST BEFORE SCALE

“Great products deserve great distribution. Great brands earn trust before they earn market share.”

OUR GO-TO-MARKET PHILOSOPHY

We don't just launch products, we build communities that believe in the mission. Our strategy is designed to create sustainable momentum through trust, education, meaningful experiences, and long-term relationships.

THE GROWTH FLYWHEEL

COMMUNITY FIRST
People at the center of everything we do.

VALIDATE EARLY
Test, learn and iterate before scaling.

PARTNER WISELY
Work with organizations that share our values.

QUALITY ALWAYS
Never compromise on experience and trust.

SUSTAINABLE GROWTH
Long-term thinking over short-term numbers.

PHASE 01 COMMUNITY FIRST

- Founder-led storytelling
- Educational AI content
- Behind-the-scenes updates
- Community engagement
- Early supporter network

Goal: Build awareness and trust.

PHASE 02 EARLY ACCESS PROGRAM

- Beta testing
- User interviews
- Feature validation
- Experience refinement
- Product improvements

Goal: Learn before scaling.

PHASE 03 STRATEGIC PARTNERSHIPS

- Universities & research institutions
- Technology companies
- Startup ecosystems & programs
- Innovation labs & enterprises

Goal: Expand reach through trusted partnerships.

PHASE 04 PRODUCT LAUNCH

- Premium launch experience
- Customer onboarding
- Product education
- Community events
- Customer support

Goal: Deliver an exceptional first impression.

PHASE 05 GLOBAL EXPANSION

- International markets
- Local partnerships
- Multilingual AI experiences
- Global customer support
- Developer ecosystem

Goal: Grow globally with quality and responsibility.

OUR MARKETING PRINCIPLES

Six pillars that guide our growth strategy.

PURPOSE-DRIVEN BRAND

A mission and purpose that people believe in.

COMMUNITY

People don't just buy products, they join communities.

STORYTELLING

We share our journey openly, including challenges and wins.

TRUST

We earn trust through transparency and consistency.

GLOBAL VISION

Think global from day one, act local with empathy.

INNOVATION

Let product quality and innovation drive growth.

FOUNDER REFLECTION

“People don't just buy products—they believe in missions, trust founders, and become part of journeys worth supporting.”

Ashutosh Yadav

Founder & CEO, Advaya.ai

WE GROW BY CREATING REMARKABLE PRODUCTS, SHARING OUR JOURNEY WITH TRANSPARENCY, AND EARNING TRUST **ONE CUSTOMER AT A TIME.**

“The world's greatest brands are built one trusted relationship at a time.”

ADVAYA.AI PHILOSOPHY

Better Experiences

Natural Interaction

Human First

Long-Term Vision

Context-Aware AI Vision

Connected Ecosystem

We don't just build technology.
We build meaningful experiences.

COMPETITIVE ADVANTAGE

WHY ADVAYA.AI IS BUILDING FOR THE NEXT GENERATION OF COMPUTING

*"The future will not be won by the company with the most features.
It will be won by the company that creates the best human experience."*

OUR PERSPECTIVE

Artificial Intelligence is entering a new era. Many companies are focused on making AI more powerful. At Advaya.ai, our focus is different. We are exploring how AI can become more natural, trusted, and human-centered. Our long-term advantage comes from our philosophy, design principles, and commitment to responsible innovation.

OUR STRATEGIC ADVANTAGES

WHAT SETS ADVAYA.AI APART

HUMAN-CENTERED DESIGN

We design experiences that adapt to people, not the other way around.

AI-FIRST THINKING

AI is the core of everything we build, creating intelligent, seamless experiences.

LONG-TERM VISION

We build for decades. Every decision supports a larger mission.

PREMIUM EXPERIENCE

Technology should feel elegant, intuitive, and effortless to use.

RESPONSIBLE AI

Trust is our greatest advantage. Privacy, transparency, and ethics come first.

CONNECTED ECOSYSTEM

The future is connected. Our ecosystem brings intelligence together.

THE ADVAYA.AI ADVANTAGE

These principles form the foundation of our long-term strategy.

FOUNDER REFLECTION

"Our competitive advantage is not built on being louder than others. It is built on understanding people better than anyone else."

Ashutosh Yadav
Founder & CEO, Advaya.ai

OUR PROMISE

No matter how technology evolves, one commitment will remain constant:

PEOPLE WILL ALWAYS COME FIRST.

"Technology becomes truly extraordinary when people no longer notice the technology—only the possibilities it creates."

THE FUTURE TIMELINE

- 01 **TODAY VISION**
We imagine the future with clarity and purpose.
- 02 **TOMORROW INNOVATION**
Research, Explore, Challenge limits.
- 03 **NEXT PRODUCTS**
Build exceptional products people love.
- 04 **GROWTH ECOSYSTEM**
Create a unified ecosystem that grows together.
- 05 **FUTURE GLOBAL IMPACT**
Empowering millions, Creating worldwide value.
- 06 **LEGACY TECHNOLOGY THAT SERVES HUMANITY**
A legacy of trust, impact and positive change.

THE FUTURE OF ADVAYA.AI

BUILDING INTELLIGENCE THAT SERVES HUMANITY

“The future belongs to companies that build technology people trust—
not because it is powerful, but because it genuinely improves their lives.”

A WORLD WITHOUT
DIGITAL FRICTION

Technology should quietly support people—providing information, solving problems, and enabling better decisions exactly when needed.

ONE UNIFIED INTELLIGENCE

One intelligent ecosystem that follows you naturally across every interaction. One identity. One memory. One trusted AI experience.

HUMAN POTENTIAL,
AMPLIFIED

AI should never replace human intelligence. Its purpose is to expand what people can achieve—creativity, learning and meaningful work.

BEYOND PRODUCTS

Our vision extends beyond hardware. Advaya.ai aspires to become a company known for:

Responsible
AI ResearchHuman-Centered
DesignPremium
Technology
ExperiencesGlobal
InnovationEthical
EngineeringLong-Term
Value Creation

BUILDING FROM INDIA FOR THE WORLD

We believe innovation has no geographical boundaries. Our ambition is to build world-class technology in India that serves people across the globe and represents the creativity, engineering excellence, and entrepreneurial spirit of a new generation.

OUR LEGACY

Years from now, we hope Advaya.ai is remembered not only for the products it created, but for the positive impact it made on people, technology and society.

★ OUR NORTH STAR

We envision a world where:

- ★ Artificial intelligence is naturally accessible.
- ★ Technology understands people before responding.
- ★ Digital experiences become seamless and distraction-free.
- ★ Intelligence empowers creativity, learning, and productivity.
- ★ Every innovation is guided by responsibility and trust.

GLOBAL VISION

Building technology in India with a vision to serve the world.

HUMAN-CENTERED AI

Designing AI that understands, adapts and respects humans.

RESPONSIBLE INNOVATION

Privacy, transparency and ethics are at the core of everything we build.

CONTINUOUS PROGRESS

We never stop learning, exploring and improving.

TRUST

Earned every day through honesty, quality and meaningful impact.

LASTING LEGACY

Creating technology that empowers humanity for generations to come.

FOUNDER REFLECTION

“The greatest achievement of a company is not becoming the biggest. It is becoming the most trusted by the people it serves.”

Ashutosh Yadav

GLOBAL
IMPACT

A BETTER FUTURE
FOR HUMANITY

OUR INVITATION

Whether you are a student, engineer, designer, researcher, entrepreneur, creator, or future collaborator—

There is a place for people who believe
in building meaningful technology.

THE FUTURE BELONGS TO THOSE WHO BUILD IT.

WHY JOIN ADVAYA.AI?

Because we are building more than products.

We are building a mission.

A culture driven by curiosity.

A company guided by integrity.

A future shaped by responsible innovation.

OUR COMMITMENTS

- ✓ Human-Centered Innovation
- ✓ Responsible AI
- ✓ World-Class Design
- ✓ Engineering Excellence
- ✓ Continuous Learning
- ✓ Long-Term Thinking
- ✓ Trust Before Everything

“

Every extraordinary company begins with a single idea. Every extraordinary future begins with people willing to build it.

”

FOUNDER REFLECTION

“Advaya.ai is more than my dream. I hope it becomes a mission shared by people around the world who believe technology should help humanity move forward.”

Ashutosh Yadav

Founder & CEO, Advaya.ai

ADVAYA.AI

BUILDING THE FUTURE.
EMPOWERING HUMANITY.

“ The future doesn't belong to those who predict it. It belongs to those who build it. ”

A MESSAGE FROM THE FOUNDER

“

Advaya.ai started with a simple question:

What if technology could truly understand people?

Every day since then, that question has guided our vision.

We know the road ahead will be challenging, but we also believe that the greatest innovations are born from bold dreams, relentless learning, and the courage to keep building.

Thank you for believing in this journey.

Building the Next Generation of Human-Centered AI

OUR JOURNEY ROADMAP

01 VISION

A bold vision to amplify human intelligence.

02 RESEARCH

Deep research in AI, wearables, and human behavior.

03 DEVELOPMENT

Engineering the technology that makes it possible.

04 PRODUCT

VYOM – AI glasses that redefine how people interact with the world.

05 GLOBAL SCALE

Expanding globally with strategic partnerships.

06 FUTURE ECOSYSTEM

A connected ecosystem of intelligent devices and experiences.

“ The next generation of iconic technology companies will not simply build smarter products— they will redefine how people interact with intelligence. ”

WHY THIS MATTERS

The future of computing is moving beyond screens. People expect technology that is intuitive, personal, always available, and truly understands them.

WHY INVEST IN ADVAYA.AI

VISION-LED INNOVATION

A long-term mission to redefine human-computer interaction.

NEXT-GENERATION PRODUCT

VYOM represents our vision for AI-first wearable computing.

GLOBAL OPPORTUNITY

Transforming education, productivity, healthcare, communication, and everyday life.

RESPONSIBLE AI

Privacy, transparency, and ethical engineering are our foundation.

STRATEGIC PARTNERSHIPS

Collaborating with leading innovators, researchers, and technology partners.

LONG-TERM GROWTH

Building a sustainable ecosystem with long-term value and global impact.

BUILT IN INDIA. DESIGNED FOR THE WORLD.

Proudly building global technology through Indian innovation.

LOOKING AHEAD

The next decade will define the future of artificial intelligence. Our ambition is to contribute to that future by building technology that empowers people rather than competing for their attention.

THE FUTURE IS WIDE OPEN.
TOGETHER, WE CAN BUILD IT.

HOW INVESTMENT CREATES IMPACT

- ✓ AI Research & Development
- ✓ Product Engineering
- ✓ Hardware Prototyping
- ✓ Software Development
- ✓ Industrial Design
- ✓ Team Building
- ✓ User Research
- ✓ Global Partnerships
- ✓ Responsible Innovation

OUR GROWTH STRATEGY

WHAT WE ARE BUILDING

We are not simply creating another hardware company. We are building a platform where AI becomes more human, technology becomes more invisible, innovation creates lasting value, and trust becomes the strongest competitive advantage.

OUR INVESTMENT PHILOSOPHY

“ We are not only building a company— we are building the foundation for the next generation of human-centered artificial intelligence. ”

FOUNDER REFLECTION

Investment is more than capital. It is shared belief, shared responsibility, and a shared commitment to building technology that truly serves humanity.

WHO WE WANT TO COLLABORATE WITH

UNIVERSITIES & RESEARCH INSTITUTIONS

Advance research in AI, machine learning, computer vision, robotics, wearable computing, and human-computer interaction.

TECHNOLOGY COMPANIES

Collaborate on AI platforms, cloud infrastructure, semiconductor technologies, software ecosystems, and emerging innovations.

MANUFACTURING & SUPPLY CHAIN PARTNERS

Build reliable, scalable, and premium-quality products through world-class manufacturing excellence.

STARTUP ECOSYSTEM

Work with incubators, accelerators, deep-tech startups, and innovation communities to accelerate product development.

GOVERNMENT & INNOVATION PROGRAMS

Engage with national and international innovation initiatives that support entrepreneurship, research, and technology development.

ENTERPRISE & BUSINESS PARTNERS

Develop AI-powered solutions that enhance productivity, collaboration, learning, and digital transformation.

“ The future of artificial intelligence will not be built by one company alone. It will be built by visionary partnerships that combine talent, technology, and purpose. ”

THE ADVAYA.AI COLLABORATION ECOSYSTEM

Together, these partnerships create a powerful ecosystem of innovation.

OUR COLLABORATION ROADMAP

CONNECT
Build meaningful relationships with visionary partners.

COLLABORATE
Share knowledge, resources, and expertise.

INNOVATE
Co-create ideas and push the boundaries of what's possible.

BUILD
Engineer solutions that solve real-world problems.

LAUNCH
Deliver intelligent products and experiences.

SCALE
Expand globally and empower millions of people.

GLOBAL IMPACT
Create a lasting positive impact on humanity.

AREAS OF COLLABORATION

AI RESEARCH

Develop next-generation AI technologies.

PRODUCT INNOVATION

Design and engineer intelligent wearable experiences.

HARDWARE DEVELOPMENT

Advance electronics, sensors, and industrial design.

SOFTWARE & CLOUD

Create secure, scalable AI platforms.

MANUFACTURING EXCELLENCE

Deliver premium quality with global standards.

GLOBAL EXPANSION

Bring trusted AI experiences to people worldwide.

OUR PARTNERSHIP PRINCIPLES

- ✓ Shared Vision
- ✓ Mutual Trust
- ✓ Long-Term Commitment
- ✓ Open Innovation
- ✓ Transparency
- ✓ Responsible AI
- ✓ Sustainable Growth

BUILDING TOGETHER

Our ambition extends beyond creating products. We aim to build an ecosystem where researchers, engineers, designers, entrepreneurs, investors, educators, and innovators collaborate to shape the future of human-centered AI. Innovation grows stronger when knowledge is shared.

FOUNDER REFLECTION

“ Some of history's greatest achievements were never built by individuals alone. They were built by people who shared a vision, trusted one another, and dared to create something extraordinary together. ”

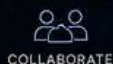

Ashutosh Yadav
Founder & CEO, Advaya.ai

WHY PARTNER WITH ADVAYA.AI?

- A bold long-term vision for AI wearables
- Human-centered design philosophy
- Commitment to responsible AI
- Focus on innovation and research
- Opportunity to help shape the future of computing
- Built in India with a global vision

“ Together, we can create technologies that are more intelligent, more responsible, and more meaningful than any organization could build alone. ”

TOGETHER, WE DON'T JUST BUILD PRODUCTS. WE BUILD THE FUTURE.

THE WORLD WE IMAGINE

We envision a future where technology amplifies human potential and creates opportunities for all.

EDUCATION

Every learner has access to personalized, intelligent assistance.

HUMAN INTELLIGENCE

AI amplifies human creativity, capability, and potential.

HEALTHCARE

Technology supports better health, faster care, and greater well-being.

SUSTAINABILITY

Innovation contributes to a more sustainable, responsible world.

PRODUCTIVITY

Helping individuals and organizations work smarter and achieve more.

GLOBAL CONNECTIVITY

Breaking language barriers and bringing people closer through seamless communication.

HUMAN-CENTERED FUTURE

People remain at the center of every technological advancement.

“ Technology achieves its highest purpose when it empowers humanity to solve bigger problems, dream bigger dreams, and create a better future. ”

AI THAT CONNECTS.
HUMANITY THAT THRIVES.

OUR GLOBAL MISSION

To build AI experiences that empower people, strengthen communities, and create lasting positive impact across the world.

THE RIPPLE EFFECT

BUILDING FROM INDIA, INSPIRING THE WORLD

India has always been a land of knowledge, discovery, and innovation. Advaya.ai hopes to contribute to this legacy by creating world-class AI technologies that inspire people across every continent.

OUR GOAL IS SIMPLE
BUILD IN INDIA. EMPOWER THE WORLD.

OUR MISSION. GLOBAL IMPACT.

We aspire to contribute to:

EDUCATION

Making knowledge more accessible and meaningful.

PRODUCTIVITY

Helping people and organizations work smarter every day.

ACCESSIBILITY

Designing inclusive AI experiences for everyone.

INNOVATION

Accelerating responsible scientific and technological progress.

SUSTAINABILITY

Building technology with long-term environmental and social responsibility.

HUMAN POTENTIAL

Helping people unlock greater creativity, confidence, and capability.

OUR RESPONSIBILITY

As AI evolves, our responsibility grows with it.

- ✓ Ethical Innovation
- ✓ Responsible AI
- ✓ Transparency
- ✓ Privacy
- ✓ Human Dignity
- ✓ Long-Term Thinking

ADVAYA.AI'S LEGACY

Success for us is measured by the impact we create.

- ♥ Lives Improved
- 📖 Knowledge Shared
- 🌱 Opportunities Created
- 💡 Innovation Inspired
- 🤝 Trust Earned
- 🌍 Positive Global Impact

THE FUTURE WE BELIEVE IN

We believe the coming decades will redefine the relationship between people and technology.

Our aspiration is to ensure that this relationship is built on trust, empathy, intelligence, and purpose.

“ Our dream is not simply to build a successful company. Our dream is to help build a future where artificial intelligence expands human potential and creates opportunities for every generation. ”

A LETTER FROM THE FOUNDER

TO EVERYONE WHO BELIEVES THE FUTURE CAN BE BETTER

PAGE
29

Dear Reader,

If you are reading this, thank you.

Your time is valuable, and the fact that you have chosen to learn about Advaya.ai means more than I can express.

This company did not begin in a laboratory or a corporate office. It began with a question that refused to leave my mind:

“What if artificial intelligence could become the most natural technology humanity has ever created?”

That single question became the foundation of everything you have read in this profile.

WHY I STARTED ADVAYA.AI

Like millions of people, I watched technology become more powerful every year. Yet I also noticed something else.

People were spending more time looking at screens and less time engaging with the world around them.

Technology was becoming smarter. But it wasn't always becoming more human.

I began imagining a different future.

A future where AI quietly supports people instead of competing for their attention.

A future where intelligence is always available, yet never distracting.

A future where technology feels invisible because it works so naturally.

That vision became Advaya.ai.

And VYOM became the first step toward bringing that vision to life.

THE ROAD AHEAD

I know this journey will not be easy. Building world-class technology demands patience, discipline, continuous learning, and relentless execution.

There will be obstacles.

There will be setbacks.

There will be moments when the destination feels impossibly far away.

But every meaningful innovation in history began exactly this way—with a vision that seemed impossible until someone decided to build it.

MY PROMISE

As the founder of Advaya.ai, I make these commitments:

- ✓ We will always put people before technology.
- ✓ We will pursue innovation with responsibility.
- ✓ We will build products designed to earn trust.
- ✓ We will continue learning, improving, and evolving.
- ✓ We will never lose sight of our mission.

TO FUTURE BUILDERS

If you are a student, engineer, researcher, designer, entrepreneur, investor, creator, or dreamer—this journey belongs to you as much as it belongs to me.

The future is built by people who choose to create rather than simply observe. I hope Advaya.ai inspires others to imagine boldly, work tirelessly, and build technology that truly serves humanity.

LOOKING FORWARD

Years from now, I hope people remember Advaya.ai not only for its products but for its purpose.

If we can help even one generation think bigger, learn faster, create more freely, and solve meaningful problems through responsible AI, then our work will have been worthwhile.

This is only the beginning.

The best chapters are still waiting to be written.

ONE DREAM.
ONE MISSION.
ONE FUTURE.

Together.

OUR COMMITMENTS

HUMAN FIRST

We build technology that enhances human potential and enriches real lives.

RESPONSIBLE AI

Ethical innovation and transparency are at the core of everything we build.

CONTINUOUS INNOVATION

We never stop learning, exploring, and building better for the future.

GLOBAL IMPACT

Our ambition is to create technology that positively impacts people everywhere.

TRUST ABOVE EVERYTHING

We earn trust through honesty, quality, and our unwavering commitment.

Ashutosh Yadav

Founder & CEO
Advaya.ai

“Dream fearlessly. Build relentlessly. Stay humble. Never stop learning. And always remember that the greatest technology is the technology that helps humanity become greater.”

THE FUTURE IS WRITTEN BY THOSE WHO CHOOSE TO BUILD IT.

OUR MISSION

To create human-centered artificial intelligence that naturally integrates into everyday life, empowering people to learn, create, communicate, and achieve more through responsible innovation.

OUR VISION

To become one of the world's most trusted artificial intelligence companies, building intelligent technologies that expand human potential and create lasting value for generations.

OUR CORE VALUES

Human First

Responsible AI

Excellence in Design

Continuous Innovation

Integrity & Trust

Global Impact

“The future is not something we inherit.
It is something we choose to build.”

THE JOURNEY CONTINUES

Advaya.ai is more than a technology company. It is a long-term commitment to building products that people trust, experiences that feel natural, and innovations that improve lives.

- Every idea begins with curiosity.
- Every breakthrough begins with courage.
- Every future begins with a decision to build.

This is only
the beginning.

FOUNDER CLOSING MESSAGE

“

I believe the future belongs to people who never stop learning, never stop building, and never stop believing that technology can make humanity stronger. Thank you for becoming part of this journey.”
